

STREAM PRO | COMPLETE THE TREATMENT SETUP

Control and destruct accessories

Timers, warning controls, remote operation and ozone-destruction options for professional setups.

CATEGORY DOCUMENT	MODEL STATUS
OPS-CTRL	Selected after application review

Where this family fits

This document supports early product-family selection. Suitability and the final equipment model depend on the treatment context, materials, isolation, ventilation, operating window and responsible procedure.

- Higher-control sites
- Repeat operations
- Documented workflows

Selection inputs

- Existing equipment compatibility
- Site access arrangements
- Required decay and ventilation workflow

Typical package scope

- Quoted control or destruct accessory
- Compatible leads, fittings or adapters where specified
- Approved operating instructions
- Integration notes for the selected system

Availability

Supplied with systems or specified separately

TECHNICAL INFORMATION

Model data is supplied with the recommendation

The fields below are intentionally not populated at category level. Approved manufacturer documentation will be used for the selected model.

MANUFACTURER / MODEL	Confirmed in quotation
OZONE OUTPUT	Verified model value to be inserted
AIRFLOW	Verified model value to be inserted
ELECTRICAL SUPPLY / POWER	Verified model value to be inserted
DIMENSIONS / MASS	Verified model value to be inserted
CONTROLS / TIMER	Selected model configuration
SAFETY FEATURES	Selected model configuration and project controls
STANDARDS / CERTIFICATES	Relevant approved evidence to be attached

Controlled-use principles

- Remote-operation options
- Visual warning controls
- Catalytic ozone-destruction options

SAFETY NOTICE

Ozone is hazardous to health. Complete a suitable COSHH assessment, control access, follow the model instructions, ventilate after treatment and verify conditions before re-entry. HSE EH38 states a workplace exposure limit of 0.2 ppm averaged over 15 minutes.

Document status

General category datasheet for selection support. It is not a model manual, certificate, quotation, treatment procedure or completed technical submittal. Verify all critical data against the approved documents supplied with the selected model.
