

STREAM PRO | COMPACT PROFESSIONAL RANGE

Portable ozone systems

Transportable equipment for controlled treatment work across changing sites and room types.

CATEGORY DOCUMENT	MODEL STATUS
OPS-PORT	Selected after application review

Where this family fits

This document supports early product-family selection. Suitability and the final equipment model depend on the treatment context, materials, isolation, ventilation, operating window and responsible procedure.

- Restoration contractors
- Facilities teams
- Multi-site operators

Selection inputs

- Room dimensions and layout
- Odour source and affected materials
- Available isolation and ventilation

Typical package scope

- Selected portable ozone generator
- Model operating instructions
- Power lead and supplied connection accessories
- Pre-use and return-to-service checklist

Availability

Sales and short- or long-term hire

TECHNICAL INFORMATION

Model data is supplied with the recommendation

The fields below are intentionally not populated at category level. Approved manufacturer documentation will be used for the selected model.

MANUFACTURER / MODEL	Confirmed in quotation
OZONE OUTPUT	Verified model value to be inserted
AIRFLOW	Verified model value to be inserted
ELECTRICAL SUPPLY / POWER	Verified model value to be inserted
DIMENSIONS / MASS	Verified model value to be inserted
CONTROLS / TIMER	Selected model configuration
SAFETY FEATURES	Selected model configuration and project controls
STANDARDS / CERTIFICATES	Relevant approved evidence to be attached

Controlled-use principles

- Timed operation
- Remote-start options where supported
- Clear operating and warning procedures

SAFETY NOTICE

Ozone is hazardous to health. Complete a suitable COSHH assessment, control access, follow the model instructions, ventilate after treatment and verify conditions before re-entry. HSE EH38 states a workplace exposure limit of 0.2 ppm averaged over 15 minutes.

Document status

General category datasheet for selection support. It is not a model manual, certificate, quotation, treatment procedure or completed technical submittal. Verify all critical data against the approved documents supplied with the selected model.
