

STREAM PRO | CABINS AND INTERIORS

Vehicle treatment systems

Portable systems selected for controlled use in cars, vans, fleets and transport interiors.

CATEGORY DOCUMENT	MODEL STATUS
OPS-VEH	Selected after application review

Where this family fits

This document supports early product-family selection. Suitability and the final equipment model depend on the treatment context, materials, isolation, ventilation, operating window and responsible procedure.

- Vehicle detailers
- Fleet operators
- Rental and transport teams

Selection inputs

- Vehicle type and cabin volume
- Interior material condition
- Source-removal and ventilation plan

Typical package scope

- Selected portable vehicle-treatment generator
- Approved model documentation
- Vehicle treatment checklist
- Specified timer, hose or monitoring accessories

Availability

Sales and flexible hire

TECHNICAL INFORMATION

Model data is supplied with the recommendation

The fields below are intentionally not populated at category level. Approved manufacturer documentation will be used for the selected model.

MANUFACTURER / MODEL	Confirmed in quotation
OZONE OUTPUT	Verified model value to be inserted
AIRFLOW	Verified model value to be inserted
ELECTRICAL SUPPLY / POWER	Verified model value to be inserted
DIMENSIONS / MASS	Verified model value to be inserted
CONTROLS / TIMER	Selected model configuration
SAFETY FEATURES	Selected model configuration and project controls
STANDARDS / CERTIFICATES	Relevant approved evidence to be attached

Controlled-use principles

- Unoccupied treatment procedure
- Controlled timing
- Ventilation and re-entry checks

SAFETY NOTICE

Ozone is hazardous to health. Complete a suitable COSHH assessment, control access, follow the model instructions, ventilate after treatment and verify conditions before re-entry. HSE EH38 states a workplace exposure limit of 0.2 ppm averaged over 15 minutes.

Document status

General category datasheet for selection support. It is not a model manual, certificate, quotation, treatment procedure or completed technical submittal. Verify all critical data against the approved documents supplied with the selected model.
